WALTER KNOLL

SEITO. Design: Wolfgang C.R. Mezger.

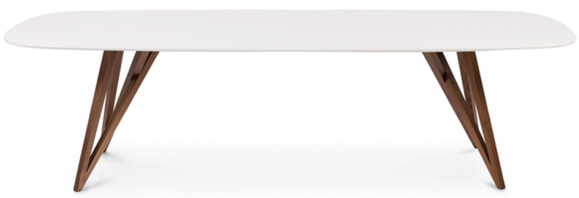

Table sculpture. There are tables that simply do not need showcasing. Their uniqueness makes them necessarily eye-catching. And that is the case with Seito. This dining table is a dream of lightness with its balanced lines, angles and surface. Effective understatement: the table top made of white quartz positioned on a base made of elegant nut wood. It is a joy to gather around such an impressive table in the very best of company. À table.
