

BuzziShade Pendant

The designer BuzziShade lamp provides lit surroundings in which to conduct your conversation away from prying eyes. The lamp's acoustic insulation prevents eavesdroppers from hearing your most private or intimate conversations, and reduces external noise levels - the music and the general hustle and bustle - to a minimum. The BuzziShade is extremely versatile. It guarantees pleasantly subdued and diffusely lit surroundings. The BuzziFelt is sound absorbent, as well as being ecologically sound! The perfect addition to any office, waiting room or restaurant, the BuzziShade is ideal for large-scale events.
