Aava

Aava transforms an essential and efficient form to evocative through the texture and warmth of wood. Soft curves yield a contemporary silhouette that is both striking yet sensitive, an adaptive form that can speak or assimilate to any environment. Made for both residential and contract use, Aava's wooden shell and base are fabricated in a diverse range of materials, colors and finishes. Its shell is available in a range of wood materials: birch effect painted black or white, natural birch effect, natural oak color, natural walnut color and beechwood, or upholstered in fabric, leather and faux leather. Bases include wooden legs, the versions with sled or chrome four-legs are available with or without armrests. Chrome four-leg and sled bases version are stackable for large-scale use and storage. A stool version of Aava is also available in two heights (65 and 75 cm).

Designer

Antti Kotilainen, 2013

Design Office Antti Kotilainen was founded 1997 in Helsinki. Characteristic for Kotilainen's design work is organic functionalism set to meet contemporary qualifications. Behind his work is a drive to refine technical issues and details into aesthetics of the final product. His aim is to compose designs that look as effortless as they look essential. In the best Scandinavian tradition Kotilainen has explored new ways to work with wood in numerous of his furniture designs. Aava is the result of our first collaboration.
