

FLUID PENDANT LAMP

FURNITURE / LIGHTING / ACCESSORIES

CLAESSON KOIVISTO RUNE ON THE DESIGN "We wanted to give the lamp a form with a certain softness, towards a more natural language and further removed from pure geometry. Fascinated by the way that surface tension governs the curvature of a resting water droplet, we have tried to capture it's essence. The subtle irregularity of FLUID means that their silhouette gently changes depending upon the viewing angle. It also brings a greater light intensity to the lamps' underside - just where you need it."

PRODUCT FACT SHEET

PROCESS

The Fluid lamp shade is made out of mouth blown glass, which is frosted silky mat. The edge on top of the lamp is grinded and polished.
