SAMMEN™

Sammen™ is a soft and comfortable chair designed by Jaime Hayon. Sammen is instantly likable because it is an honest, modern and simple chair – a comfortable seat that makes you feel relaxed and free to share your thoughts with everyone around the dining table. This is where we eat, meet, work and discuss life's events, big and small, spending hours of quality time. The chair puts you in the right frame of mind – relaxed, at ease and ready to take part in these shared moments. The warm look of the wooden legs and the soft, padded shell that embraces you make Sammen a perfect choice for making your dining room feel like your living room.

## JAIME HAYÓN 1974-

"Design needs to solve the problem and be long lasting - off-course. But it is important to remember that my design is made for humans - to be used by humans. I believe that design should provoke emotions. Design should make you feel good. Create happiness."

Spanish artist-designer Jaime Hayón was born in Madrid in 1974. Franco died the same year and Spain was a new, fresh and dynamic country. Jaime Hayon was raised with freedom. For him growing up in Spain in the eighties was a period with an explosion of emotions and all this has impacted him later on as a designer. As a teenager, he submerged himself in skateboard culture and graffiti art, the foundation of the detailed, bold-yet-whimsical imagery so imminent in his work today. After studying industrial design in Madrid and Paris he joined Fabrica in 1997, the Benetton-funded design and communication academy, working closely with the legendary image-maker and agitator Oliverio Toscani. In a short time he was promoted from student to head of their Design Department. Eight years later, Jaime broke out on his own, first with his collections of designer toys, ceramics and furniture, later followed by interior design and installations. Jaime's knowledge of artisan skills and his creativity have resulted in collections for a diverse range of clients. He is also currently working on interiors for hotels, restaurants and retail establishments around the world.

Jaime currently resides in Valencia, Spain with offices in London, Barcelona and Treviso (Italy). His work has appeared in the art and design publications worldwide and he has won numerous awards.

## DESIGN

Jaime Hayon, 2015.

## DESCRIPTION

Chair designed by Jaime Hayon, manufactured by Fritz Hansen.

Sammen™ is available in two varieties: With or without armrests. The shell of the chair is made from a steel frame with soft foam moulded on top and covered with fabric. The armrests have also a steel construction covered with moulded soft foam and fabric. The seat cushion is made of a plywood plate covered with moulded soft foam to achieve the right form and comfort. The shell and seat cushion come fully upholstered in 6 different designer colours.

The base comes with four legs made of natural or black lacquered oak veneer. Under each leg are nylon glides suitable for a majority of floors mounted.
