

FirstCall Phone chair

The ideal chair to make phone calls in public environments

General information

The FirstCall has been developed by the Dutch designer Ruud van de Wier and is produced by EASY Noise Control. The chair offers users privacy, while the sound-absorbing upholstery blocks noise around the office. It also works the other way around: other people in the room will not be disturbed by the phone call. The FirstCall is tailored to open-floor-plan offices and public spaces.

Features

- Available in a three different fabrics
- Available in various colours
- Suitable for offices, waiting rooms, showrooms, malls, airports and similar public places.

FirstCall Phone chair

Beans:

Mosaic:

Design

The FirstCall phone chair is built to encourage short conversations, not for relaxing for extended periods of time. The user is expected to spend a relatively short time seating on the chair.

Ordering or more information
