AIRY COFFEE TABLE FURNITURE / LIGHTING / ACCESSORIES

Cecilia Manz on the design "The idea behind AIRY was to create a side table that did not scream but still was not afraid to speak. The result is a table series that masters the fine balance between being light and airy, and at the same time having plenty of personality and individuality. Due to this combination AIRY gets a multi-functionality that makes the side tables suitable for every kind of interior."

PROCESS

The metal frame is welded and soldered very accurately to create the light and skinny silhouette of the frame. The table top is cut and plywood is finally polished.
