

LA GRANDE TABLE

(Designer X.Lust)

Aluminium tables

Special mention in the 2004 Compasso d'Oro competition

Tables made with a curved natural aluminium sheet.

Finish:

- aluminium lacquered
- matt white lacquered
- gloss white lacquered

The table is suitable for outdoor.

Any material left outside, even if properly treated, can have superficial molecular and colour changes during its lifetime. Of course, the amount of alterations is directly related to the amount of exposure to weather and to the geographical area (for ex., high humidity and/or salinity). Regular maintenance, for instance periodic cleaning with water, increase resistance to corrosion.

Besides assuring the lateral and longitudinal stability of the tables, the reinforcement beams (in height 70 mm with tables to 240 cm and in height 95 mm with larger sizes) and the supporting L-shaped profiles make it possible to have pieces of different thicknesses according to size, thus further improving them visually: in 80 cm wide tables the aluminium thickness is 5 mm, in the 90 cm wide tables the aluminium thickness is 6 mm.

Height 73 cm. Maximum length 4.40 m

Please note: the design of the table and the peculiarity of the bending in the aluminium sheet produce structural curvatures in the tabletop both in length and transversally. Such curvatures are a specific feature to the table.

Diagram of supporting elements

		matt/gloss white*	aluminium
size cm	code		
80 x 200	0409-026		
80 x 220	0409-027		
80 x 240	0409-134		
90 x 280	0409-037		
90 x 320	0409-039		
90 x 360	0409-135		
90 x 400	0409-136		
90 x 440	0409-137		

note

*When ordering, please specify if gloss or matt white
