UNO

Francesco Rota | 2016

UNO

Francesco Rota | 2016

A chair, three different backrests - guest, executive and lounge - which can be combined with different bases, finishes and upholstery. Thanks to its innate versatility, UNO is a protagonist in the office, in the home and in all community spaces. The comfortable high and rigorous backrest in the executive version ensures maximum support for the shoulders and back and can be lowered to create a softer line for a chair that elegantly adapts to a living room or a more relaxing meeting space. In short: the system has been created, now find the right solution for you.

UNO

Francesco Rota | 2016

S230 | Office chair Height-adjustable, on castors

UNO | S230 S231 S232 S233 S242 S243 S244 S245 S246 S247 S248 S253 S257 S258 S259 S260

Family of chairs with height adjustable or fixed base in die-cast aluminium, either sandlblasted or powder coated, with castors and tilt mechanism. Seat and backrerst in several heights are made of fire retardant polyurethane foam upholstered with fabric, leather or eco-leather. Tilt mechanism is highly suggested for lounge versions.

use and maintenance instructions

Clean all parts in wood, leather, fabric and metal with a damp cloth or a diluted neutral cleaner. Do not use cleaners with alcohol, bleach, solvent or abrasive products. Any liquid spilt on the product must be wiped up immediately.When lifting or moving the product, hold it on the structure and not under the seat. The product should not be subjected to unbalanced weights, as it is designed for a proper rest on the foothold (on four legs or on the base). Our company relieves from any responsibility in case of damage caused to fragile floors. Avoid any improper use of the product: do not step on the product, on the footrest or on the armrests. Avoid any movements that could compromise the proper functionality of the product or the safety of the users.Wood and leather, being natural materials, could be easily damaged. Small impurities or imperfections are within quality standard range.Do not expose the product to weather conditions or atmospheric agents, nor to heat sources over 40°C. Also products for outdoor use could be afflicted by atmospheric agents. The product could undergo possible exterior changes due to particular exposure to heat, humidity and saltiness. An appropriate and frequent maintenance and cleaning of the product enhances its durability. The product could change colour and shade, if exposed to direct sunlight. Maintenance has to be carried out by experienced staff. Dispose of the package only after assembling the product, in order to avoid the loss of ironmongery and components. Once the product has been dismantled, the product itself or its components must be given to the public garbage disposal system, according to the legislation in force.
