

Baobab is a sharing table with high connectivity: it is available in circular (Ø 240) or square (180x180 – 220x220) versions. Its large worktop can hold up to 8 people in single or shared stations. It is also the perfect demonstration of the Italian Smart Office and its own key concepts: Functionality, Sharing and Design. All items are equipped with electrical connection through USB and Schuko sockets. The top can be realized in melamine finish on MDF, Fenix laminate or in Wood veneer; the main structure can be P016 in painted or chromed metal, or P45 with legs in real Oak wood. The product features a central cone in real Oak Wood, with an height of 205 cm, which works as a cableway and supports four helical leaves with integrated LED light (leaves are covered with technical fabric with sound-absorbing features).
