Insit. 780 range.

Insit

The design of contemporary office and commercial furniture needs to convey a distinct corporate identity and foster collaboration and a feeling of well-being. All three aspects are reflected in the Insit upholstered furniture range. Whether as a standalone piece or linked to form a sectional group, the characteristic design with its stylishly modelled frame, flat upholstery, and distinctive backrest positioned on top is a symbol of collaborative working with a feel-good flair.

With a light and airy design, the firm upholstery guarantees agile comfort and, at a seating height of 45 cm (17 3/4 inches), enables people to hold discussions, work, or eat and drink at standard table heights. And last but not least, Insit's variety of models and configurations makes it a multipurpose, attractive eye-catcher that allows office workers to sit, interact, and work together.

Upholstered benches with and without backrests

Function

Multipurpose upholstered benches with and without backrests with coordinating tables for customer service areas, foyers, lobbies, waiting spaces, areas in the middle of rooms, cross-over spaces, co-working spaces and canteens. When sitting vertically at a seating height of 45 cm, people can work, communicate, eat and drink at normal table heights and chairs can be added. The integrative design turns each Insit into an individually scaleable attractive sculpture. By using connectors and side tables, the elements create a versatile system that can be linked to form complex configurations. The range of two-, two-and-a-half and three-seaters includes benches that are straight sloping or linked at 90-degree angles at the corners and that come with linear backrests or ones bent on one or both sides or that change direction, as well as benches without backrests that can be used on both sides.

Frame

Polished or high-lustre polished die-cast aluminium A-line base frame or coated white, black or with a silver satin finish. Table top bearer to connect the seat made of black coated sheet steel. Black polyamide glides as the standard version for carpets; optionally with felt insert for hard flooring.

Seat and backrest

Wooden frame design with integrated panel made of beech, upholstered all the way round with contour-cut foam, seat cushioning made of cold foam with a fleece overlay, fully covered in fabric or leather. Backrest: Wooden frame design made of beech, upholstered with contour-cut foam all the way round, back cushioning made of contour-cut foam, fully covered with fabric or leather, depending on the model linear, sloping or bent on one or both sides or with a change of direction, optional with a 30 cm higher backrest (only in linear models). Benches without backrests (models 782/6 and 783/6) without backrest.

Inline connectors

Inline connector, model 780, for secure bench-to-bench linkage, made of sheet steel, coated black, with four black screws.

Tables

Frame

Models 780/1, 780/2, 780/3, 780/4, disc base made of steel, (diameter models 780/1, 780/2 and 780/4 Ø 51 cm, model 780/3 Ø 95 cm) with cover made of sheet steel coated white, black or in a silver satin finish or optionally brushed stainless steel or bright chrome-plated. Steel table column to match the disc base with cover coated white, black or in a silver satin finish or optionally brushed or bright chrome-plated stainless steel. Black-coated sheet steel table top bearer. Model 780/9, Polished or high-lustre polished die-cast aluminium

A-line base frame or coated white, black or with a silver satin finish. Table top bearer to connect the seat made of black coated sheet steel. Black polyamide glides as the standard version for carpets; optionally with felt insert for hard flooring. Model 780/10 connecting table top with connection rods made of black coated flat steel, with four screws to connect the table and bench securely. Model 780/11 Steel frame consisting of column and foot section, coated white, black or in a silver satin finish or optionally with a stainless steel look or bright chrome-plated. Black-coated sheet steel table top bearer. Black polyamide glides as the standard version for carpets; optionally with felt insert for hard flooring.

Subject to change.

Wilkhahn

Core material of table top

Plywood with straight wood or plastic lipping all the way round or MDF table top with chamfered lipping all the way round

Table top group 1 – laminate

Table top thickness 26 cmm Table height 74.5 cm

Variant 1

Laminate (single colour) from Wilkhahn's colour and surface samples with straight wood lipping with a natural oiled finish or optionally bullnose (double) with impact-resilient profile (for an additional charge) Laminate wood decor from the Wilkhahn colour and surface samples with straight, colour matched plastic lipping.

Type 2

Soft matt laminate from the Wilkhahn colour and surface samples with straight wood lipping. Anti-reflective, soft-touch surface with anti-fingerprint characteristics.

Table top group 2 – veneer

Table top thickness 26 cmm Table height 74.5 cm

Type 1

Beech, oak or ash veneer from Wilkhahn woodstain colour samples with straight or chamfered wood lipping (for an additional charge).

Type 2

Maple, walnut or elm veneer from Wilkhahn woodstain colour samples with straight or chamfered wood lipping (for an additional charge).

Table top group 7 – black/white through-dyed

Panel thickness 12 mm Table height 73 cm Table top made of through-dyed HPL (High Pressure Laminate) in black or white, chamfered lipping.

Standards

The upholstered benches with and upholstered benches without backrests comply with the DIN EN 16139-L1 standard.

Edge profiles

Straight plastic edging

Straight wood edging

E2 – 5 Chamfered wood edging, 12mm

E5 – 1 HPL solid core, edge chamfered, 4 mm radius

Table top groups

Laminate (single colour), soft matte laminate, wood decor laminate, veneer type 1 or 2, black or white HPL (high pressure laminate).
For additional surfaces, please see our media center.

Laminate. The material is made by bonding cellulose and décor paper layers, as well as resin, by applying heat and pressure. This produces an extremely tough surface that comes in a variety of different colours. Laminate is highly recommended for areas where the tables are subject to a lot of wear and tear because they are frequently moved around for example.

Wood veneers. Natural wood is a living material: in the way it looks and changes over the years. Sometimes more significantly and sometimes more subtly, depending on the type of wood and how light it is. If a more consistent look is preferred, stained surfaces or industrially produced veneer (e.g. mocha) are available.

Foot section

Coated white, black, or with a silver satin finish, polished aluminum, high-luster polished aluminum

Disc base with cover and table column

Coated white, black, or with a silver satin finish, bright chrome-plated, brushed stainless steel

Integrated techni-station Compact

780

Inline connector

Set for linear or back-to-back linkage
(one set is required for each bench connected)

Techni-station Frame

To fit underneath the seat or connecting table, sheet steel, black coated frame socket strip with 3 modules:
2 x power supply module (please state the local standard when ordering)
1 x module with 2 x USB chargers (charging current 2.1 A) to recharge up to two mobile devices with connection for supply lead, mod. 708/8

Installation frame

To fit to the connecting table mod. 780/10, to position in the middle. Die-cast zinc, matt chrome installation frame, round or square fitted installation to insert exchangeable ports.

Exchangeable ports

Cable outlet

electricity supply

Wireless charging module (Qi standard)

Port with 2 x USB chargers

708/8

Supply lead

Wilkhahn

The details are equally as impressive as the form. The facings all the way around feature precise flat-felled seams, and the seams in the seat and backrest have decorative double saddle stitching.

The benches' fully upholstered seats and backrests are top quality, hard wearing, and designed for frequent use. They consist of solid beech frames with cut foam and cold foam upholstery, which has fleece overlay between the foam and the cover. This makes the furniture pleasant to sit on and protects the foam from mechanical wear and tear.

The high-quality craftsmanship continues in the base frames of the bench and the lounge table; made in one piece from die-cast aluminum that tapers at the bottom, they give the bench and the lounge table a stable yet elegant, floating look. Its lightweight appearance also pays off in terms of functionality – the area where feet are placed is unobstructed, making the furniture simple to grip and reposition as desired and the floor underneath easy to clean.

The connecting table panels can be fitted with integrated technical stations, which can optionally feature cable outlets or various inputs (for electricity, wireless charging, Keystone modules, USB charging ports).

If required or specified, under-mount power units available with power outlets and USB charging ports.

Inline connectors with screws allow the benches and connecting table panels to be connected linearly or at the back.
