WorkSofa

Respect for the environment is paramount at Prooff. Therefore we carefully select our partners and work closely to ensure that potentially damaging substances are never present in our products and processes. We build long-term relationships on a shared commitment to maximise quality and minimise environmental impact.

We are committed to preventing unnecessary use of resources, reducing pollution and ensuring excellent health and safety at work. Together with designers and suppliers we seek to develop new methods for environmentally friendly production. We consistently review our products and processes with the aim of reducing their environmental impact.

- The WorkSofa is manufactured in the Netherlands.
- All used MDF and massive oak is FSC® Chain of Custody-certified which ensures that raw materials for wood and paper products come from responsibly managed forests.
- PU Flexible Foams used in the WorkSofa do not contain Ozone depleting substances and are not produced using products regulated by pertinent Legislation (EU Regulation 1907/2006EC).
- Thermally bonded battings which are used in the WorkSofa cause no damage to the environment, they can be 100% recycled.
- Any coating powder used does not contain any contents that are toxic, dangerous, hazardous to the environment or health in terms of ChemO (1999/45/EC/ 1272/2008/EC) and EU guidelines.
- Fabrics of Kvadrat (ISO 14001) complies with EU Ecolabel, have no use of AZO dyes, which may split off carcinogenic acryl amines, no use of dyes containing heavy metals and there is no content of formaldehyde.
- Fabrics of Camira (ISO 14001) contain non-metallic dyestuffs and the fabrication makes 0% waste to landfill.
- Our products are packed with a plastic film and cardboard. These materials are easily separable. The cardboard is 100% recyclable and we only use recyclable plastic (within the limit for heavy metal content pursuant to 94/62/EEC).
- The WorkSofa is designed to have a long lifespan. Prooff gives a 5 year warranty on the product and keeps the 10 year warranty on the fabrics from Kvadrat and Camira.
- Regular cleaning is important in order to keep the upholstery looking at its best and to prolong its life. Vacuum frequently on medium power, ideally every week. Do not rub the material hard because this could result in loss of colour or perhaps damage the structure of the fabric.
