- Primary function as a communal meeting point
- Focal piece that facilitates dialogue and discussion
- Customisable for any space

With its bright coloured blocks and unusual composition, the modular WorkSofa is an eye-catcher. The design fosters its primary function as a communal meeting point. Whether it's a brainstorm or a group work session, an afternoon coffee or an impromptu meeting, designers Studio Makkink & Bey created the WorkSofa with conversations in mind. The WorkSofa can be customised for any space, making it a celebrated focal piece that facilitates dialogue and discussion above all.
